

Union Council Motion
26/10/06

Bradford Student rejuvenation and re-launch and equal standing motion.

The Union Notes:

1. Bradford student cinema (BSC) was a part of the students Union. It also was a high earner for the Students Union in this peak. It was one of the oldest societies within the Students Union which can trace its heritage back to early days of the university, formerly it was the Film Society.
2. In the mid nineties the projector was replaced 1940s Westrex 2001 projector model still in common use. In 2001 the students union funded an upgrade of the sound facilities, and the cinema was fitted with a Dolby CP55 processor, new amps and speakers including a subwoofer. A red laser sound reader was also installed to future proof the projector for the arrival of cyan sound tracks, and improve the quality of intermediate high magenta sound tracks.
3. BSC in its past has run the British Federation Film Societies Student Group Conference and various exclusive preview screenings of newly released movies. Like many professional cinemas its screens cinema trailers and adverts from Pearl & Dean (these advertisements are still being paid for showing and the Union still receives them).

The Union believes:

1. That Bradford Students cinema should and needs to be re-launched with new vigour and determination it once had, also that it should be up there with the same standing of ram air and kinetic.

The Union Resolves

1. to re-launch Bradford Student cinema
2. to help its re-creation
3. to set up Bradford students cinema to its original standards of showing good quality film
4. To provide Bradford student cinema as a media service to all students of the University of Bradford.
