

Nestle Boycott

This Union Notes:

1. The Union's previous policy on the Nestle boycott.
2. That Nestle continues to fail to unilaterally stop their aggressive marketing of Baby milk products in the Third World.
3. The University has failed to endorse this policy.

This Union Believes:

1. That the Union should continue to endorse a Nestle boycott.
2. That the Union should lobby the University to make this campus a Nestle free zone.

This Union Resolves:

1. To continue to boycott Nestle products, and to reject any offers of sponsorship or any association whatsoever with Nestle.
2. To raise awareness of the reasons for the boycott amongst students and staff at the University.
3. To actively encourage Nestle free zones on campus, including University departments, cafeterias, snack machines and Halls of Residence.

Proposed: Jenny Larden.

Seconded: Claudia Bradshaw.
